

NHS Wi-Fi INSTRUCTIONS

- **Connect to – ‘ NHS Wifi ‘**
- **Go to – Create account in small writing at the bottom**
- **Enter details**
- **Next screen will show you a password under your email (remember it as you will need it for the next stage)**
- **Enter password given and then change it to whatever password you want**
- **You will then be connected to the Wi-Fi**

(If it doesn't work, click on ‘ NHS Wi-Fi ‘ again, click on ‘ forget network ‘ then connect again using the above instructions – this would normally work!)
